## **Agenda Item #2**

### **AY24-25 Tuition and Fee Technical Adjustment**

**Summary of Resolution: Adoption of Technical Revisions to the Academic Year 2024-2025 Tuition Tables**

In March of 2024, the Board of Trustees approved the 2024-2025 Academic Year Tuition Tables. The university has implemented a new tuition website which makes it much easier and clearer for students to understand the specific tuition rate applicable to them based on their entering cohort year, field of study and degree level. During this process and the usual implementation in the billing system of tuition tables several technical errors or areas where billing was less clear than would otherwise be preferred were identified in the tuition tables as approved. Amendments to the tuition tables are necessary to ameliorate these issues and improve billing clarity. Changes are marked in red in the redline tuition tables attached to this docket item (Exhibit A) and described below to facilitate board review. Exhibit B includes amended tuition tables proposed for adoption.

**Technical Corrections**

**Incidental Fee:** Tuition and administratively controlled mandatory fees are set for entering cohorts for five years through the Oregon Guarantee program. However, the Incidental Fee (I-Fee) is adjusted on an annual basis for all students through an ASUO led process. For those cohorts for which tuition and administratively controlled mandatory fees have previously been approved by the Board of Trustees, (2020, 2021, 2022 and 2023 Tuition Cohorts) the tuition tables did not include increases to the I-Fee of \$3.75 for the academic year and a prorated sum (\$0.94) during summer term. This impact can be seen on the 2024-25 Fees by Cohort and Student Level table and each respective cohort's tuition table in which total tuition and fees are tabulated by credit load.

For clarity we have also added a note to the fee table to clarify the summer fee rate for the incoming tuition cohort (2024 Tuition Cohort). The vast majority of incoming students matriculate to the university and begin their first term of study during Fall Term each academic year. However, students can begin their course of study during the summer term. The fee rate indicated on the 2024-25 Fees by Cohort and Student Level table lists Summer 2025. However, by historical practice that fee rate has been assessed for incoming cohorts during their first summer of enrollment. To improve clarity a footnote has been added to this table indicating that the listed summer term rate is for both the leading and trailing summer term for incoming students. That footnote reads as follows:

*"For the entering tuition cohort (2024 Tuition Cohort) the Summer 2024 administrative Mandatory Fees and I-Fee rates will be equal to the Summer 2025 rates listed above."*

**2020 Tuition Cohort Summer Rate:** Next summer the first Oregon Guarantee cohort (the 2020 Tuition Cohort), those that entered the institution during the summer of 2020 or the following academic year (fall 2020, winter 2020, spring 2021), will complete their fifth year of eligibility and automatically cycle into the 2021 Tuition Cohort. The current tuition table lists a summer 2025 tuition rate for the 2020 Tuition Cohort. However, that rate is not applicable as this cohort will cease to exist at the end of the 2024-25 academic year and should be deleted in its entirety. This impacts the 2024-25 Fees by Cohort and Student Level table and the 2020 Tuition Cohort detail table. The summer rates for the 2020 Tuition Cohort are deleted in both locations.

**MBA/MSF Summer Term Option 2 Summer Term Tuition Rate (2024):** The Lundquist College of Business offers a joint Masters of Business Administration (MBA) and Masters of Science in Finance (MSF) concurrent degree program. The concurrent degree program has two tuition rate structures, one for students who pursue a joint MBA/MSF degree from the outset of their graduate studies (Option 1). These students pay the total cost for both programs equally over seven terms. Alternatively, students who enroll in the MBA program or MSF program can later elect to complete a concurrent MBA/MSF degree and have an alternative tuition structure (Option 2). These students pay the incremental cost above the single degree program for both degrees over four terms. The pricing for these programs is substantially equivalent in total, though the sequence of courses, timing of tuition charges and time of declaration is different.

Option 2 begins during the summer term leading into the next academic year (fall, winter and spring). In the Academic Year 2023-24 Tuition and Fee Tables a tuition rate was incorrectly published for the trailing summer (summer 2024). This rate has been publicly available since March of 2023. This tuition rate is below what was approved by the Board at its March 2024 meeting and is not correct. However, because there was a previously approved and published rate, the university is proposing to honor this tuition rate during summer 2024. This is footnoted in the revised Academic Year 2024-25 Tuition and Fee Tables presented to the Board for adoption. The discount applied to honor this rate will be equal to the 3.0% increase from the prior year tuition rate for this program, as requested by the Lundquist College of Business.

**Law Fee Rates:** There is a \$0.01 rounding error in the 2024-25 Fee Increases – Per Term of Semester detail table for the Law rates. This is due to rounding when converting fees from Terms to Semesters.

**2024 Tuition Cohort Summer Term Rounding:** Historically summer term tuition rates have been offered at a discount to academic year rates. The discount has been applied by multiplying the total tuition charged at a certain credit hour by the discount percentage and rounding to the nearest penny. This rounding has created issues in the university's billing system which cannot manage rounding in this way. Going forward we will adjust the method by which we compute the summer discount to match the restrictions of the billing system. This will eliminate any rounding issues in our billing system and ease administration of summer rates. No changes will be made to published rates for previous tuition cohorts. The changes can be seen on the Guaranteed Undergraduate Tuition and Fees for Students in the 2024 Tuition Cohort detail table.

**Graduate Tuition Notes:** Note 3, related to College of Education's graduate programs in the Graduate Tuition Notes table incorrectly includes the Applied Behavior Analysis program as being charged the "Supervision" tuition rate. This program has a specific rate charged in the College of Education graduate program tuition detail tables and that note needs to be corrected to match the tuition tables.

### **Process Changes Going Forward**

Staff responsible for managing the tuition setting process and development of the tuition tables are adjusting the process to 1) update the tuition table templates to manage rounding more effectively, 2) include clearer check-off processes for stakeholders for each tuition and fee table in order to avoid omissions/errors such as this in the future, and 3) begin the tuition and fee table development process earlier in fall term to increase the time available for proofing.

## **Agenda Item #3**

### **FY24 Expenditure Authorization Revision**

At its meeting in June 2023, the Board of Trustees adopted a FY24 expenditure authorization of \$1,345,300,000 for operations and \$228,600,000 for capital projects. The resolution included authorization for the university to expend an additional three (3) percent on top of these projected estimates without additional approval by the Board.

The financial management team monitors expenditure levels throughout the year, with particular attention each quarter as financial reports are developed for the Board. Based on the most recent analysis, the team is projecting that total FY2024 expenditures will be at or very near the three percent expenditure authorization threshold. Given how close the projected expenditures are to the three percent authorization level, the university is seeking a revision to the operating expenditure budget by an additional seven million (7,000,000) dollars.

The increase in operating expenditures is due to several factors described below. Primary among them is faster than anticipated rehiring of staff, settling of recent labor contracts, an unanticipated increase in state funded student financial aid and foundation supported scholarships, as well as re-normalization of supplies and services expenditures at or above pre-pandemic levels. These trends have been monitored throughout the year and we now have greater clarity as the third quarter of fiscal year 2024 has closed. Out of an abundance of caution we believe it is prudent to seek authority to increase the operating expenditure budget authorized in June of 2023.

**Operating Budget Summary:**

|              | June 2023<br>BOT Approved<br>Expenditure Authority | Q3 Forecast<br>Expenditures | Q3 Forecast as % of<br>Authority |
|--------------|--|-----------------------------|----------------------------------|

| <b>Total</b> | <b>\$1,345,300,000</b>                             | <b>\$1,382,550,420</b>      | <b>102.8%</b>                    |

*Note: All figures exclude Plant Funds, Internal Bank Funds, and Depreciation*

Major Expenditures in excess of expense authority forecast budget forecast:

- **Contract Settlements & Hiring:** *Personnel expense has increased considerably through the year as net rehiring and implementation of recent labor contracts drove expenditures above those assumed in the initial expense authorization (+3.3% above assumed expenses).*
- **Student Aid:** *Unanticipated increases in Oregon Opportunity Grant funding and formula adjustments approved by the Higher Education Coordinating Commission directed significantly more student aid funds than was otherwise anticipated to the university. Additional foundation funded scholarships were distributed to students further increasing Student Aid. These funds are passed through to students as financial aid and are offset by state revenues and foundation gift funds (+18.1% above assumed expenses).*

- **Merchandise-Resale/Redistribution:** Sales at athletics events and student health centers were stronger than the assumptions included in the initial expense authorization and are offset by merchandise revenues (+5.1% above assumed expenses).
- **Indirect Costs:** Expenditures on sponsored projects (grant activity) were stronger than anticipated, and F&A rates assessed on new grants increased. These factors yielded stronger than initial forecast indirect cost expenses and are offset by grant revenues (+5.3% above assumed expenses).

With the proposed increased Expenditure Authority we anticipate the following:

| Expenditure Authority Increase | \$7,000,000                                 | N/A                         | N/A   |
| <b>Total</b>                   | <b>\$1,352,300,000</b>                      | <b>\$1,382,550,420</b>      | <b>102.2%</b>                               |

With the increased expenditure authority the university is projected to exceed the expenditure authority, but will remain at less than the budget plus 3% buffer provided by the Board which totals \$1,392,869,000.

**Summary and Requested Action:**

The university requests that the Board of Trustees approve an increase of \$7,000,000 for the FY2024 Operating Expenditure Authority to \$1,352,300,000 out of an abundance of caution to ensure that university expenditures remain within Board approved limitations. This proposal does not affect the capital expenditure authorization.
