

Board of Trustees of the University of Oregon

Resolution: AY19-20 Resident Undergraduate Tuition

Whereas, the Board of Trustees of the University of Oregon (the “Board”) has the authority to determine tuition and mandatory enrollment fees in accordance with ORS 352.102, ORS 352.105, and other applicable law and policy;

Whereas, current resident tuition rates are largely a function of continued state disinvestment in higher education, and the increase necessary for Academic Year 2019-2020 (AY20) is highly correlated with the level of funding provided by the legislature to the Public University Support Fund (PUSF);

Whereas, the level of funding in the PUSF for AY20 will not be established for several weeks but planning for AY20 finances—both by the institution and those students attending next year—must proceed;

Whereas, it is prudent at this stage to plan for multiple scenarios of state funding and, therefore, different possible resident undergraduate tuition rates; and,

Whereas, President Schill has recommended to the Board a tuition rate increase schedule indexed to various levels of increased support for the PUSF, with a top rate increase of 9.68% correlated to an increased investment in the PUSF of up to \$90 million and a rate increase of 4.45% correlated to an increased investment in the PUSF of at least \$120 million;

NOW, THEREFORE, the Board of Trustees of the University of Oregon hereby approves the following:

1. Resident undergraduate tuition rate increases as articulated in the schedule attached hereto as Exhibit A, with the final rate to be finalized by the president and Chief Financial Officer based on this schedule once the legislatively-adopted budget for the 2019-21 biennium is passed by the legislature and signed by the Governor (or the signature period to become law lapses);
2. The CFO or her designee may finalize updates to the Tuition and Fee Policy Book related to the resident undergraduate tuition rate authorization in (1) above;
3. The CFO or her designee may finalize the AY20 tuition and fee tables by updating the rates associated with the undergraduate tuition rate authorization in (1) above; and,
4. The President or his designee(s) may take any other actions necessary to effectuate the authorization established in (1), above.
