

Board of Trustees of the University of Oregon

Resolution: Reduction to AY17-18 Resident Undergraduate Tuition

Whereas, the Board of Trustees of the University of Oregon (the "Board") has the authority to determine tuition and mandatory enrollment fees in accordance with ORS 352.102, ORS 352.105, ORS 352.107, and other applicable law, and policy;

Whereas, the Board approved certain rates for tuition and fees for fiscal year 2017-18 (FY18) in March 2017;

Whereas, that approved tuition plan included a tuition reduction schedule by which resident undergraduate tuition would decrease if the Oregon Legislature funded higher education at certain levels;

Whereas, resident undergraduate tuition would decrease by \$7 per credit hour based on the approved reduction schedule and the 2017-19 legislatively-adopted funding for the Public University Support Fund; and,

Whereas, the Board wishes to lower resident undergraduate tuition by another \$1 per credit hour based on this legislative-approved funding to further mitigate cost increases on students.

NOW, THEREFORE, the Board of Trustees of the University of Oregon hereby modifies the AY17-18 tuition and fee schedule such that resident undergraduate tuition shall increase by \$13 per student credit hour rather than \$21 per student credit hour.
